

Asset Management

JETCRAFT 
COMMERCIAL

FOR YOUR WORLD

A full suite of asset management capabilities at your fingertips

We have the financial, commercial and operational power to manage, protect and grow your aircraft investment portfolio.

Our asset management offering includes:

- Invoicing of rent and maintenance reserves
- Utilisation recording
- Collections and maintenance reserve allocation
- Insurance claim management
- Monitoring of lease covenants
- QME management – work scope review, invoice review, MR reimbursement and reconciliation

We're best placed to offer a bespoke package for you

Our highly experienced team has originated, purchased, sold and remarketed over 500 aircraft. We create innovative and competitive solutions based on asset class, risk and return profiles for our clients.

Sourcing and Origination

- Originating investor's preferred asset class
- Purchase price analysis
- Financial modelling of investment returns and maintenance cashflows

Initial Due Diligence

- Airline credit analysis
- Operational and asset risk review
- Jurisdictional risk review

Lease Structuring

- Tax advice and efficiency
- Creation of SPV structure

Acquisition

- Technical, legal and commercial support through the acquisition phase
- Onboarding the lease into the Jetcraft Commercial Asset Management MCF System

We
understand
every aspect
of risk

With the capability and processes to identify, assess and mitigate risk for our clients, we know how to generate return on their investment.

Risk Management

- Red Flag report
- Macro risk monitoring
- Workout development and execution

Redelivery Management

- Redelivery planning and lessee liaison
- On-site support of documentation review, technical inspection
- Commercial support and negotiation

Remarketing

- Market analysis
- Origination
- Full platform support from LOI to Lease Agreement to Delivery

Divestment and Exit Strategy

- Sale with lease attached - Origination and financial modelling
- Residual value analysis and part-out disposal management
